UNIHOC
SHOES

THE FUTURE IS HERE!

UNIHOOC SHOES

This year we present our single biggest launch ever when we introduce the brand new UNIHOOC SHOES collection. Adding this new product line to our otherwise extensive collection makes us a complete supplier of floorball gear, and the perfect partner for any floorball club. As the pioneer brand in the floorball business we have many years of experience and introducing a shoe line is therefore a natural step to take. We now add the only missing piece in our collection and we do it with a full range of models, all the way from high-end senior indoor models to goalie shoes, lady shoes, running shoes and junior shoes. **The future is here!**

SUP TRACTION

The Suptraction U3 Indoor outsole has been designed exclusively for Unihoc. This high-performance indoor outsole is made for floorball players, with highest ambitions. We developed an outsole, which delivers excellent traction, is light, durable and flexible at the same time. The phylon midsole gives additional support to the foot, which is needed during the fast direction changes.

U-BRIDGE

A light arch support and a light weight phylon which gives the shoes strength and stability, without loss of flexibility. The bridge ensures that the foot gets supported, particularly during direction changes.

FLEX ZONE

The flex zone gives the player the needed flexibility for rotations and turns.

SUPTRACTION RUBBER

The durable, non-marking Suptraction compound offers superior traction on court surfaces.

PHYLON CUSHION MIDSOLE

Waves in the midsole save weight and maximize comfort. The density attenuates shocks during the impact phase.

LATERAL CONTROL

The small enhancement in the forefoot area helps to keep the foot in a comfortable and stable position.

The rubber formula is a key element of our outsoles, besides the density and the specific profile, which helps define the outsole for the specific need.

UNILITE INSOLE

Our lightweight, quality footbed is a combination of comfort and support. The anatomic moulded footbed provides excellent cushioning.

FEATURED ON THE FOLLOWING MODELS:

POWER

SUP
TRACTION

POWER

Unihoc U3 Power is a floorball shoe designed for stability and control, in combination with an optimized last for perfect fit. A strong Micro Fiber and a light technical mesh are used to ensure breathability and comfort. The carefully selected materials guarantee both durability and unsurpassed suppleness, to match the high demands of the fast floorball game.

U3 - a shoe model for every player

The U3 GOALIE shoe is a durable light-weight goalkeeper shoe that has been designed to increase the mobility and comfort for the goalie. A combination of strong and durable materials has been developed to create the perfect shoe for the modern goalkeeper.

UNIHOC U3 GOALIE
COLOUR:
NEON ORANGE/BLACK

SEX:
UNISEX
ART NO:
17076

SIZE:
US 4.5 - 13
UK 3.5 - 12
EUR 36 - 47

DUAL OUTSOLE SYSTEM

Separated outsoles for the front and the back of the foot increase the flexibility for the goalie, and lower the weight of the shoe.

FLEXI SHANK

The shank has been designed to increase the flexibility for the goalie during the movement across the floor, since it makes it possible to use the forefoot with more accuracy when performing a move.

SLIDE CONTROL

The high placement of the outsole rubber at the front and along the side of the shoe has been designed for optimal grip and slide improvement.

LACE COVER SLIDE SYSTEM

The smooth surface of the cover that has been placed on top of the laces decreases the friction against the floor and optimizes the slides.

U-FRAME

To stabilize the foot during quick direction changes and fast lateral movement.

NON-MARKING RUBBER

JUNIOR

JUNIOR

The U3 JUNIOR indoor shoe is a the perfect model for the younger players. This model is a junior version of the U3 Power senior model, offering a more basic version for younger players but still keeping the same exclusive design. The rubber outsole and the moulded EVA insole give both comfort and stability on the court. The outsole is made of non-marking rubber.

U3 RUNNER

UNIHOOC
SHOES

U3 RUNNER

The U3 Runner shoe is a comfortable and breathable running shoe, offering plenty of guidance for a neutral gait. The shoe features an anatomically shaped and pre-moulded insole for superior stability and fit.

The Cushion Fit midsole construction is designed to efficiently absorb shock and provide high comfort. The weight of the Cushion Fit midsole is reduced to a minimum, without compromising its durability. Whilst reducing the overall weight of the shoe, the stability has been improved by integrating a Shank Support around the midfoot area.

**SHANK
SUPPORT**

Moulded arch support around the midfoot area.

**CUSHION
FIT Midsole**

Efficiently absorbs shock and provides high comfort during running.

**UNI GRIP
RUBBER OUTSOLE**

The material and the structure of the outsole provide enhanced grip and added durability for both road and trail running.
